

## Press Release

### Constructive Advisory Board and Steering Board Meeting in Liblice, CZ

Prague, 13 November 2017

From the 6 – 7 of November 2017, the InRoad Advisory Board (AB) and Steering Board (SB) met at Liblice castle, which is located 28 kilometres northeast of Prague. During the meeting, participants reviewed the progress of the project and looked forward to the upcoming steps. Concretely, the AB and SB reviewed and validated the results and preliminary policy insights derived from the *InRoad consultation report*. The discussions also touched upon the organisation of the second InRoad stakeholder engagement workshop that will take place at the Renaissance Hotel in Brussels during the 15 and 16 of January 2018. Moreover, the Work Package (WP) leaders presented their latest updates and feedbacks within their WPs (see also agenda in the annex).

At the end of the meeting, the AB and SB agreed on the last changes on the *'InRoad Consultation Report'*, which will be released later this month including the compendium of the first analysis of national RI roadmap procedures. Moreover, the AB and SB decided to react on the [report of the European Commission \(EC\)](#) on the long-term sustainability of Research Infrastructures<sup>1</sup>. InRoad will therefore select different elements from the EC action plan where the project makes a contribution and publish a small reply by the time of the Engagement workshop in January.

Finally yet importantly, the AB and SB members discussed and approved the programme for the [Engagement Workshop](#). The invitation for the workshop will be sent out in the upcoming week.

Following the AB and SB meeting, a regional workshop took place in order to discuss the roles of European Structural and Investment Funds (ESIF) and national funding for research infrastructures. It is the first of a series of five regional workshops and involved around 34 RI managers and funders. The outcome of the workshop are key to select a second series of recommendations and best practices on how the different funding sources can be used for RI at different stages of the lifecycle.

The InRoad AB and SB members would like to thank the Czech partner *Ústav Fyzikální Chemie J. Heyrovského Av Cr, v. v. i. (HIPC)* for hosting the meeting in the conference centre of Liblice Castle. The Czech hospitality was highly appreciated.
